

Dear Sir/Madam,

I urge you to reject the National Association of Broadcasters petition 04-160. I live in the DFW area and I commute two hours a day. I rely on the availability of traffic and weather information, always available, commercial free, from XM radio to ensure my commute is safe. I pay for this service because the weather, traffic, and wide range of music all available commercial free. This type of service is simply not available from the member of the National Association of Broadcasters.

I strongly object to protectionist action such this petition. Particularly for the provision of substandard services. I am not interested in hearing ten minutes of advertising just to hear the weather and traffic. I pay for this service because I value my time and because when I need this information I need it immediately. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I urge you again, please reject the NAB's petition 04-160. I thank you for your attention.
